OFFICE ACTION

Allowable Subject Matter

Claims 1-20 are allowed. Following is the reason for allowance:

Haukka et al (US 2002/0115252) discloses forming a layer comprising a high-K dielectric material sandwiched between top and first aluminum oxide layers [Abstract]. *Gregor et al* (US 6,008,091) discloses forming a tantalum pentoxide sandwiched between first and second silicon dioxide layers. However, neither *Haukka et al* nor *Gregor et al* teaches or suggests, *inter alia*, forming a modified ONO structure with the steps of depositing a layer comprising a high-K dielectric material on a first oxide layer and forming a top oxide layer on the layer comprising a high-K dielectric material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
